

# PLINT BATTERY MINI

Nemo's exploration of the world of architectural battery-powered lighting proceeds with an innovative design path that began with Plint.

3000K

## LAMPING

|                   |                                                                                                  |
|-------------------|--------------------------------------------------------------------------------------------------|
| Source            | LED                                                                                              |
| Total power       | 2,4W                                                                                             |
| Emission          | direct orientable                                                                                |
| Switching         | switch on board                                                                                  |
| Tension           | 5V                                                                                               |
| Color temperature | 3000K                                                                                            |
| Luminous flux     | 185lm                                                                                            |
| Typ CRI           | 90                                                                                               |
| Energy class      | G                                                                                                |
| IP class          | 20                                                                                               |
| Dimensions        | 13x11,6cm                                                                                        |
| Notes             | cable included (USB-C), rechargeable, 5 hours battery life,<br>4,5 hours charge time (light off) |
