

SALINA

Family of recessed indoor downlights for accent lighting.

The luminaire/fixture is rotatable by 30° vertically and 355° horizontally to allow the free orientation of the light in any direction.

The modular structure separates the lamp into several independent parts.

The outer rings with different finishes are simple to assemble and can be replaced easily to meet different opening requirements and appearance effects.

A variety of optical accessories are available to achieve different lighting effects.
