

DORI

Alon Rotman

Dori is a floor lamp that interprets the romanticism of light as a central design element. The designer plays with the intensity and direction of the light beam, transforming the atmosphere with a simple gesture. The fusion of the metaphor of the fishing rod with Rotman's poetics has resulted in an in-depth study of light management.

LED

LAMPING

Source	LED spot
Total power	8W
Switching	dimnable on board
Tension	220/240V
Color temperature	3000K
Luminous flux	467lm
IP class	20
Dimensions	188x230x32
Materials	aluminium+inox

Codes

DRI LHH 21

Structure

chrome
