

DYNASTY

Alon Rotman

The chandelier, with its nostalgic reference to historical archetypes, arouses a sense of longing for the past, while its subtractive nature enhances its suspended presence in a contemporary interpretation. Ornamental decoration has been reduced to a minimum. The central axis, a distinctive element of a traditional chandelier, has disappeared. What remains is actually quite a lot: forty overlapping arms, suspended one above the other, each with a small light at each end.

LED

LAMPING

Source	LED
Total power	90W
Switching	1-10V/TRIAC
Tension	220/240V
Color temperature	2700K
Luminous flux	1400lm
IP class	20
Dimensions	ø110x60
Materials	aluminium
